

TRANSPARENT - OLED

We present to you a transparent OLED television with Full HD resolution. This innovative technology allows you to incorporate objects or even entire rooms behind the panel into the displayed content and place them within the scene. The screen has been specially developed to create a “wow effect” based on specific demands. It can be easily installed on walls, kiosks, or in front of other display media. You can also use it as a standalone solution in the form of a transparent video wall. Additionally, it can be adapted into a touch-screen version thanks to various product versions and its inherent flexibility.

Key Features:

- Transparent OLED display
- High transparency up to 38%
- Full HD resolution
- Excellent viewing angle
- Optional touch functionality available

SPECIFICATIONS

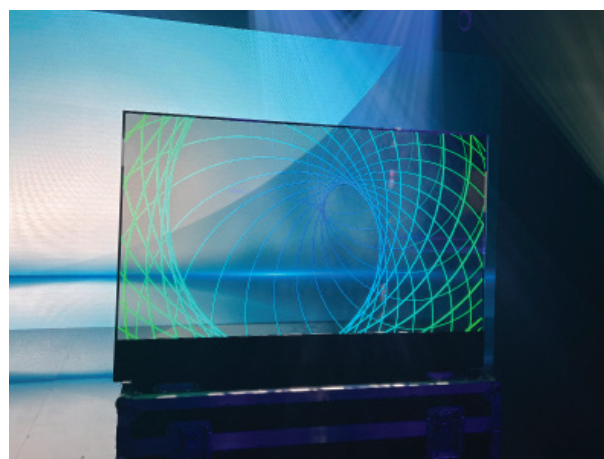

Panel

Resolution	1920 x 1080px
Aspect ratio	16:9
Brightness	APL 25% :400 cd/m2 APL 100%: 150 cd/m2
Transmittance	38%
Screen orientation	landscape/portrait

Connectivity and control
